

CHAPTER 1

MEET THE FAMILY

Grandpa Walt (*back left*) ~ Panda (*back right*)
Cheeky Wee Benson (*front right*) ~ Rupert (*front left*)

Fine drinks and barbering has been their forte for generations, a friendly family with a clear passion for all things drinks and customer care. Grandpa Walt has since retired but you can see him enjoying a Whisky from time to time. He loves nothing better than being an armchair spectator since retiring, which gets on Panda's nerves at times but most of the time he is right, wise old Walt. Panda, now at the reigns of Panda & Sons, loves nothing better than an ice cold Tommy's margarita in the summer or a Sazerac on a cold winter's night. Rupert his eldest son is already showing signs of becoming a master bartender. He is constantly making delicious fruity concoctions, minus the booze of course! Cheeky wee Benson is the tiny terror of the family. Infamous in his own charming and cute little way he loves nothing better than to make people chuckle. All we can say is he is not allowed a catapult anymore! We hope you enjoy your time with us at Panda & Sons and we thank you for popping along. Slainte!

Back in the day all hairdressers were considered barbers. Dating as far back as Ancient Greece, barbers of their day would go about their business in an agora, which was where all the big wigs went about their business and was the central social hub. Going forward to the Romans, barbers were known as ‘Tonsors’ and some of the barber shops were considered to be favoured locations of high society. If this was the case then surely there were drinks being prepared and served by the barbers and their team.

Barber Shop
- Rules of the Establishment -

DAGGERS and SWORDS**
*to be handed to the SHOPKEEPER
for safe-keeping*

❖ 1786 ❖

Flying forward to the Middle Ages barbers didn't just cut hair, they were also respected surgeons and dentists. "I will have a shave, new dentures and ankle surgery please barber!" All in all we like to think that in this vast amount of history that barbers possess, they also served as bartenders and great hosts to their patrons.

CHAPTER 1 COCKTAILS
